

# MYDM **FINANCIAL** LITERACY WORKSHOPS AND SEMINARS

Manage Your Damn Money is the effective and entertaining choice for organizations looking to increase competency and understanding of personal finances, small businesses, investing and money matters among small and large groups.

MYDM staffs an incredibly capable group of personal finance professionals and instructors who live and breathe the ins-and-outs of money to walk your constituents, students, workforce or volunteers into greater confidence in their understanding of financial matters.

We'll tailor our workshops and seminars to meet your goals. Want to cover a specific topic? We can do that. Want to deliver an overview of the basics? We've got that covered too. There's no topic too dense and no financial concept we can't break down.

**The difference in our financial literacy workshops and seminars lies in our perspective on money. We don't believe financial matters necessitate boredom; we make every effort to ensure our sessions are fun, engaging and informative.**
